

## THE WORLD AT YOUR FIRESIDE

In the long winter evenings when weather or inclination decrees that you stay at home, you will find a pleasant and an interesting companion in your newspaper. No need to go out to take an interest in what is going on. Here is news of your neighbors, of events of world-wide importance, of happenings in the realm of sport, of anything and everything that has taken place in the world far and near.

There are features of particular interest to women. There are sections with a special appeal for children. A good newspaper provides interest and entertainment for the whole family.

Here is an investment in leisure reading that will return dividends in the wealth of information and the hours of pleasure it brings you. You may be sure that a newspaper will be welcomed by your entire household. Bring the world to your fireside.

## The Calgary Herald

### Multiplying Good Seed

Two years ago the Okotoks Junior Wheat Club started operations with eighteen members and eighty bushels of registered wheat of the variety known as Red Bob 222, supplied by the Alberta Wheat Pool.

P. Berger, leader of the Okotoks club, has figured to show that in two years members of the club produced fifty-two thousand bushels of pure seed.

This is the type of seed improvement work that some fifteen hundred boys, who are members of the seventy Junior Wheat Clubs operating in Alberta this year have been doing to better the output of wheat from Alberta farms.

Scientific agriculturists have commented on the fact that wherever a Junior Wheat Club is operating, improvement is soon noted in the seed being sown in the district, due in a large measure, to the activity of these Junior Wheat Clubs, the quality of the wheat seed being sown on Alberta farms is steadily improving from year to year.

"As citizens of Canada we know

that any thing that contriptures to the success of agriculture is a contribution to all of us."

—Hon. Bona Dussault

Mr. R. Stewart of Brooks is a chinook visitor this week:

A popular heartbreaker has captured another victim we notice, maybe he has found his heart's desire this time or is he trying his breaking — up of couples again.

You would think that the young people of town would realize that this company was not always wanted on certain occasions. We wholly sympathized with the out-of-town couple Sunday night, who had so many unnecessary chapters.

Great curiosity was aroused on Monday evening when a certain man of the town was discovered searching the streets with a flashlight in the early twilight. However, the loss of his dental plate was the cause of his concern. The flashlight search proved to be unsuccessful, but the next day the lost was found by another party.

We hope not, but are suspicious, that a certain wastebasket which contained a ladies' hat some time ago, proved to be the hiding place.

Mr. and Mrs. Alvin Rowland of Aldersyde, have been visiting for the past week at the home of her parents Mr. and Mrs. W. A. Todd.

Mrs. Jas. Aitken who has been visiting with her parents Mr. and Mrs. W. S. Lee for a few weeks, returned to her home at Karskaldy Monday.

Mr. Jas. Duck who has been relieving on the C. N. R. returned Sunday.

Mr. Jack Gray left for Calgary Monday where he will spend the winter months.

Mrs E. C. Pfeiffer and daughter, Maxine spent a few days in Calgary this week.

Mr. Barros is a Calgary business visitor this week.

Mr. Earl Robinson who has been at La Porte, Sask., for the past three months, returned Tuesday.

Mr. Ethan Hagey went to Calgary last week end where he visited with Mr. Arthur Jacobson, who is very ill in the tubercular hospital in Calgary.

Mrs. Claude Brace and children of Calgary, are visiting with the former's parents Mr. and Mrs. Geo. Connel, north of town.

Mr. Fred MacDermott who got his face badly burned last week, returned from the Cereal hospital Thursday.

### FAREWELL PARTY HELD

On Wednesday evening Oct. 6th, thirty young people gathered at the home of Mr. and Mrs. Morrell to say goodbye and extend good wishes to Bill Youell who left Wednesday for Alsask, where he will visit for a few days with his parents before going to Calgary.

After playing tricks and games the crowd ran across to the school assembly Hall where they had a hilarious time playing games and singing old songs.

Then Mrs. Morrell invited the party back to her home for lunch.

An autograph with good wishes from those present was presented to Bill by Mr. Morrell, to which Bill fittingly replied.

The evening came to a close with a great deal of hand shaking and singing of—"For He's a Jolly Good Fellow."

## The Plight Of Youth

The phenomenon of young, unemployed men in large numbers wandering aimlessly all over the country in the past two or three months, some of them honestly looking for work and others professedly searching for jobs but hoping to avoid them, has been termed, and not without warrant, a "national disgrace."

There cannot but be sympathy for these youths. Many of them are offspring of thrifty, hard-working parents. Many of them are fairly well educated, some even holding university degrees. Some of them are well equipped to occupy an honored place in the business and social life of the country and have the right attitude towards work, but they find that industry does not want them, has no place in its crowded ranks where they can fit in.

On the other hand, the ranks of these idle, footloose youth include some who are more shifty than thrifty, some who prefer to shirk rather than work, and some who are outright morose and never-do-wells. Unfortunately, in the minds of a section of the general public, there is an inclination to include all of them in the latter category, and this tends to make the lot of those who are willing and eager to work and who are unable to do so through no fault of their own, harder to bear.

Unless something is done to enable these young men to find their place in the social and business life of the country, and particularly those who by upbringing, education and inclination are worthy material for citizenship, their ultimate fate is difficult to predict, beyond the general statement that it can hardly be expected to be creditable for themselves, their forbears or their country.

### Action Is Needed

As stated at the outset, one cannot help but be sympathetic towards these youth and grieved at the predicament in which they find themselves, but sympathy alone is not sufficient. Sympathy must be translated into practical action if mental, moral and physical disaster is not to be the goal towards which they press. In other words, a helping hand must be extended, if not by private effort, by the governments of the country.

On the face of it the problem seems insoluble until such times as industry has sufficiently recovered from the slings and arrows of misfortune to enable it to absorb them. The only other solution, temporary or otherwise, is for the governments of the country to do something more than is being done.

It will be argued, of course, that in the west, the federal government has made some provision to take care of these benighted youth by establishing the farm bonus plan and in providing the funds for the operation of youth training classes in the larger centres.

The former has and undoubtedly will again be of some assistance in aiding unfortunate youths but the farm bonus plan, after all, is only a seasonal and very temporary measure. It takes care for a few months of the year of one class of the unemployed young men and only a percentage of the total. Moreover, it does not ordinarily train for or lead in the direction of permanent employment for the great majority of its beneficiaries.

The youth training project, too, has no doubts merits. The educational opportunity it affords is excellent and unquestionably those who attend these classes and pursue their studies with diligence, thereby better equip themselves to occupy a place in industry if and when the opportunity to do so appears, but unfortunately it does not, at present, lead to self-support, the natural ambition of every right-minded youth.

### Abundant Opportunity

All that youth training does, as yet, is to increase the number who are equipped to compete for the few vacancies that occur in industrial life at a period when trade and commerce, using the term in its broadest sense, has not emerged from the doldrums.

Until such time as industry is able to more adequately provide for the needs and ambitions of the youth of the country it would appear that the only thing for the senior governments to do is to make some provision to enable youth to give vent to its energies in the natural and proper manner through work, and this can be best and most profitably be done through the development of the vast natural resources in which the country abounds.

One could list a number of projects which might be undertaken, the prosecution of which would restore moral tone and physical vigour to disappointed youth and at the same time yield some return to the taxpayers who would have to foot the bill. It is hardly necessary to enumerate such development possibilities. One has only to look around and see the opportunities.

There is plenty of work of a beneficial nature to be done and there are plenty to do it. Why not connect the two?

### Had Right Answer

"James," said the teacher, "come in front of the class and spell 'neighbor'!"—and he did so correctly.

"That's quite right, James," said the teacher. "Now, Tommy, it's your turn. Please tell me what a neighbor is."

After a pause, "Please, miss," said Tommy, "a neighbor is a woman who borrows things."

A bottle of water, standing outside a California house in 1931, focused the sun's rays with such intensity that the wooden wall was ignited.

## HOW YOU CAN ATTRACT MEN

Don't let love and romance pass you by. Men like girls with lots of pep and energy. So start taking time-proven Lydia E. Pinkham's Vegetable Compound and note the difference. Pinkham's Compound, made especially for women from wholesome herbs and roots, helps Nature tone up your system and thus calms irritable nerves and gives you more pep to really enjoy life.

For over 60 years one woman has told another how to go "feeling like a girl" with Lydia E. Pinkham's Compound. Let it help YOU!

### Wreng All Around

"Wrong Way" Corrigan still casts his shadow.

A conductor on a Canadian National Railway train en route east in New Brunswick was making his rounds when he discovered that one passenger not only had a Canadian Pacific Railway ticket but was bound for Vancouver, B.C.—exactly in the opposite direction.

### France Gets More Showers

France and other parts of western Europe receive less rain than the eastern United States, but, since the showers are lighter and more frequent, less water is lost by draining than in this country, where more sunny days and harder rains are more common.

During the gold rush in Alaska, beefsteak sold for \$48 a pound at Circle City.

Berlin has four thousand five hundred and fifty-three American residents.

## Campaign For Conscription

Preparations In Britain To Be Ready In Event Of War

Sir Auckland Geddes, war-time minister of national service, appealed for re-establishment of a government office similar to the one he headed during the Great War, to ensure mobilization of the population for a total war within a few months after the outbreak of a new conflict.

In a letter to The Times, Sir Auckland suggested submission of a simple questionnaire to all British voters to determine their reaction to his proposal, which received the editorial support of The Times.

Viscount Rothermere's Daily Mail intensified its efforts to obtain replies from its readers to a questionnaire asking: "Are you in favor of obligatory military service or organization of a volunteer service?"

Lord Beaverbrook's Daily Express also continued its campaign for conscription of the nation's economic and man-power resources, citing the statement of Franz Fehr, president of the Battle exchange—one of the world's greater grain markets—in favor of conscription of men for the army and also for industrial and commercial enterprises.

Mr. Fehr said officials of the Battle exchange were disposed to see their entire organization placed at the disposition of the government.

## Something New In Food

Ginger Bread With Buttermilk Said To Be Fine Combination

The columnist of the Baltimore Sun, writes one of his contemporaries, the other day remarked he had found what he called an unusual food combination recently—buttermilk and ginger bread.

"That is a food combination the origin of which would be hard to determine," says the columnist, "but I know it was a very popular combination constantly indulged in on the eastern shore of Maryland from time immemorial. The habit probably drifted down from Pennsylvania, for in every lower Pennsylvania home it is considered one of the best food combinations there ever was."

"Out in Carroll county no farmer's wife would think of offering you buttermilk without a slice of ginger bread with it—and if ever there was a combination that could charm away the torments of a hot day it is a glass of buttermilk right cold out of the springhouse and a hunk of ginger bread made by the recipe that descended to Maryland housewives from the angels. Try it some time on a hot day after a long, tiring walk."

## SELECTED RECIPES

### MARMALADE BAVARIAN

1 package Orange Jell-O  
1 1/2 cups hot water  
1 1/2 teaspoons salt  
1/2 cup heavy cream  
1/2 cup orange marmalade  
Dissolve Jell-O in hot water. Add salt. Chill until cold and syrupy. Fold in cream, whipped only, until thick and shiny but not stiff. Fold in marmalade. Chill until slightly thickened. Turn into mold. Chill until firm. Unmold. Garnish with whipped cream and additional orange marmalade. Serves six.

### CANDIED COTTAGE ROLL

4 lbs. cottage roll  
Boiling water  
1 tablespoon mustard  
Vinegar  
Sifted cracker crumbs  
Whole cloves  
1/2 to 1 cup Bee Hive Golden Corn Syrup  
Simmer cottage roll in gently boiling water until tender. Cool in the liquid in which it was cooked, then drain. Remove strings. Slice cooked cottage roll on rack in roasting pan. Smooth mustard to a paste with vinegar, and spread over fat surface of roll. Cover with sifted cracker crumbs, score in diamonds and centre each diamond with a clove. Pour corn syrup carefully over the surface. Place in a hot oven, 400 degrees F., to re-heat meat and to glaze surface. Bake carefully once or twice during cooking with liquid in pan.

### The English Translation

A Chinese landed in England for the first time. At Dover an official asked him his name.

"Sneeze," replied the Oriental.

The customs officer stared hard at him.

"Is that your native name?" he asked.

"No," The Chinese shook his head.

"I had it translated into English."

"Then let's have your native name," persisted the officer.

"Ah Choo it is," replied the other.

### Not What He Wanted

Bruno Anton, earning \$5,600 a year as chef in a London West End restaurant, was an ardent Nazi chief in London, but the last thing he really desired was to return to Germany. The other day he was recommended for deportation to his Fatherland.

Istanbul, Turkey, may have names for streets and substitute numbers.

Dentists recommend Wrigley's Gum as an aid to strong, healthy teeth, cleanses them of food particles, massages the gums, aids digestion, relieves stuffy feeling after meals. Helps keep you healthy! Take some home for the children too—they will love it!

## Hermit Cell

Site Of Historic Cell Is Found In Westminster Abbey

The site of the cell of the famous "Hermit of Westminster," credited with an important role in the history of the early Tudor kings, was believed discovered in Westminster Abbey.

Lawrence E. Tanner, keeper of the Monuments and Library of the Abbey, disclosed that during spring cleaning he found a window and a door near the Poets' Corner of the Abbey.

The door had been blocked for an unknown number of years, but Tanner concluded from old records that it led outside to a cell in which an elderly monk or holy man lived in retirement. No trace of the cell remains.

Tanner said Henry V. probably passed through that door the night his father, Henry IV, died, March 20, 1413, and may have spent the night there with the hermit, who was given credit for reforming the young king. (According to the Shakespearean story, Henry V. was a wild young man before his accession, the companion of Falstaff and other disreputable characters. After his father's death he became one of England's ablest kings.)

## Prison With A History

The Tombs On Manhattan Island Is Offered For Sale

Manhattan Island's saddest spot—the place where criminals have been punished for 300 years—is for sale. The city announced that the prison called The Tombs and the criminal courts building—both atrocious specimens of architecture—and the land on which they stand are for sale.

The price will be \$1,850,000. The ground on which the buildings stand once was the jolliest place on the island. When Hendrick Hudson, who later was to be King William IV., was a midshipman fighting George Washington's revolutionists, he fell through the ice of that pond.

But the pond saw more than happiness. On its shore the Dutch erected a gibbet. The English, too, used the spot for hangings. Americans, in 1830, followed precedent by draining the pond and building a prison. Because of its Egyptian-style architecture, the public called it The Tombs.

## Another Silk Substitute

New Textile Fibre Is Said To Be Actually Run-Proof

Japan is having trouble selling enough goods abroad to finance her imports of munitions for war and for necessities. Now her best supplier threatens to reduce her main export, which is silk. From the laboratories of the main rayon manipulator in the United States there is news of the perfecting of a revolutionary textile fibre. It is declared to be entirely different from rayon or anything else now on the market, and is so strong and elastic that really run-proof stockings will presently be an actuality. Thus, the new fibre may replace real silk in its own great remaining market, hosiery.—Brandon Sun.

## Payments To Pensioners

At the end of September a total of 88,037 cheques were being issued monthly to pensioners of the Great War. This represented a total annual expenditure of \$40,442,626. Manitoba has 8,935 pensioners receiving \$3,225,154.

Clerk: "May I have the afternoon off to go shopping with my wife?" Boss: "No."

Clerk: "Thanks."

The whiplash is said to be the fastest thing on legs. This dog can travel 200 yards in from 10 to 12 seconds.

The curvature of the earth amounts to seven inches per mile.

## Outspeeds Howitzer Shell

Eyston Believes His Record Of Value To Car Designing

Captain George E. T. Eyston, who set the land record of 357.5 miles an hour in his seven-ton automobile, Thunderbolt, told some 200 members of the Downtown Athletic Club in New York about travelling faster than the shell of a field howitzer.

Introduced by Captain E. V. Rickenbacker, chairman of the contest board of the American Automobile Association, which timed Captain Eyston's runs on the Bonneville Salt Flats in Utah, and president of Eastern Air Lines, the British speed driver said that he believed record-breaking in specialized machines was of great value to the advancement of general automobile design from the points of view both of safety and efficiency.

"Tires able to withstand six miles a minute," he said, "prove that tires can be built which will not blow out at ordinary road speeds. Finer steels and light aluminum alloys and the precise workmanship which go into the construction of such a machine as the Thunderbolt with its 4,000 horsepower inevitably mean advances for the motor car intended for the average driver."

After describing how his machine was started by being pushed by a truck just to get the huge engines turning over, and how the change was made from second gear to top gear at a little over 200 miles an hour, Captain Eyston said that when the machine attained its top velocity the eight 48-inch wheels were revolving forty-five times a second. Speed reached, he added, 357 and a half miles an hour, and 550 feet a second, the bullet of a .45 calibre revolver and about 400 feet for a howitzer shell.

"During the runs," he said, "the Thunderbolt gives off a streamer of black smoke about three and a half miles long. It passes the times compared with their electric eyes, simply as a 'swish.' Sound of its passing follows about half a mile behind."

## Something Really New

Paper Pillow Cases Protect Sleeper Allergic To Feathers

Here's another wrinkle for keeping down washings. The New York Herald-Tribune tells of something new in houses; the housewife's dream come true, in short:

"Did you know that you can have pillow cases for as little as 10 cents apiece, if you'll use paper ones? They are as soft as face tissues but, as you know, they are actually slept on the same one for a full week. These paper pillow cases really came to light as a protection for those unfortunate allergic to feathers. No odor or dust particles from the pillow itself can penetrate through them. But many a person not allergic to feathers will welcome them for nights when an extra layer of face cream or an all-night scalp treatment warrants special pillow protection."

## Old Castle Wall Found

The foundations of a wall believed to be 600 years old were discovered by workmen digging a trench to lay pipe to the guardroom of Windsor castle. It is more than five feet thick, the brickwork is in excellent preservation, and it was drilled through with difficulty.

## How Kangaroo Was Named

The kangaroo was named through a misunderstanding. In 1770, Cook, a native the name of the animal and the native replied "kan ga roo," meaning "I don't understand." Cook thought it was the name of the animal.

There are 3,300 species of fish in the waters of North America.

A barrel cactus is more than 90 per cent. water.

I sweeten my morning cereal with BEEHIVE Syrup because it is better for me.

TRY IT TOMORROW

## Oil On Ocean Bed

Canadian Oil Seekers Have Found Petroleum 2,300 Feet Down

What is believed to be the first submarine oil bed in the world has been found at Inverness, Nova Scotia.

A diamond core seeking new coal seams in a government-operated colliery came across flowing oil a mile from the mainland and 2,300 feet vertically below the sea surface. The crew had penetrated 233 feet horizontally in coarse sandstone formation when they found drippings of oil and water.

Confirming the find, Dr. Alan Cameron, provincial deputy minister of mines, said:

"We're going to carry the drill hole on further. According to the geologist and engineer there are definite showings of oil. If it is petroleum, it will be hard to get it."

## Baby Panda Likes Frost

Pet At Chicago Zoo Does Tricks Only On Cool Days

Mei-mei, the Chinese baby panda, was a disappointment to Brookfield Zoo authorities in Chicago because she would not play up to her public like her predecessor, the late Su-Lin.

Then came the season's first really cool day, so cool in fact that many persons huddled fireplaces instead of going to the zoo—and Mei-mei showed her first interest in playing and people. Mei-mei frisked and rolled, climbed and wiggled her nose at the few overcast spectators, while nearby baby gorillas went into a huddle and shivered.

Assistant Director Robert Bean is trying to figure out how to get Mei-mei and the public on an equal interest basis.

## A Freak Potato

Ohio Woman Has One Displaying Human And Animal Faces

A freak potato, weighing two pounds and consisting of three tubers, was found by Mrs. Marie Davis of Toledo, Ohio, in a bushel of potatoes she received from her sister's farm.

One of the potato's branches resembles an old woman with a bunch of hair knotted on the back of her head, and, turned at another angle, shows the likeness of a human face. Another branch looks like a rhinoceros' head and a third branch like a human face looking down.

England's first coffee house was opened in St. Michel's Alley, London, 1652.

It is possible to see an eclipsed moon while the sun is visible.

## NIGHT COUGHING CAN OFTEN BE PREVENTED

If your child often coughs at night because of even a slight cold—do this at bedtime: Thoroughly massage Vicks VapoRub on throat, chest, and back. VapoRub's poultice-vapor action tends to keep the air-passages clear, helping to maintain normal breathing through the nose, and so reducing mouth-breathing (the frequent cause of night coughs). Try it tonight—learn for yourself another reason why VapoRub is a family standby in more homes than all other medications of its kind put together.

**VICKS VAPORUB**

## POOR MAN'S GOLD

Courtney Ryley Cooper

© Courtney Ryley Cooper, WNU Service.

CHAPTER VI.—Continued

Hammond began to file the ragged edge of a long-handled shovel.

"Don't you think it's up to us to get as much gold out of that creek placer as we can? We'll have to be hiring men soon."

The older man shot him a quick glance.

"That's the fourth or fifth time you've brought that up," he said.

"Well?" asked Hammond. "Didn't we talk it over the other night?"

"We didn't come to any decision," "I did."

"That doesn't make two of us."

A certain asperity had grown up between the two boys; looking back Hammond felt that McKenzie Joe's nature had become steadily surlier ever since the first arrival of Timmy Moon's airplane and its passengers. Jack had resented that, as though it were an implied insult to the girl he loved.

"We Didn't Come to Any Decision."

"Look here, Joe. We've got to get our money out of this discovery. We can't stay here forever."

"Seems to me," McKenzie Joe said, as he looked out over the valley, "when we found this place, we both

## TAKE THE LEAD OUT OF YOUR LEGS

Get Oxygen in Your Blood and You'll Get the Pep that Sends You Bounding Up the Stairs

People who suffer from leg cramps, muscle aches, and other leg troubles, are usually suffering from a lack of oxygen in their blood. This is because the blood carries oxygen to every part of your system. Without enough oxygen-carrying corpuscles, your kidneys, liver, stomach and bowels slow down. Your skin gets pale, flabby, often itchy. Your nerves may become jittery—your tire quickly—feel depressed.

What you need is Dr. Williams' Pink Pills. These world-famous pills help make more and better red corpuscles and thus increase the oxygen-carrying power of your blood. Get Dr. Williams' Pink Pills today at your druggist. See for yourself how quickly this time-proven blood-builder will help you get back your pep. See how it helps you.

figured it was where we were going to settle down—that we had a life job."

"We're not going to have a year's job. If we don't find that older black-rook. That Loon creek placer won't be enough for us."

"It's enough for me right now," the older man said. "I ain't ever seen that much money before."

Hammond bent over the shovel blade.

"Our ideas are different there."

"You mean, you've let somebody change 'em for you?"

Hammond threw down the shovel; it clattered on the wooden floor.

"I'm getting tired of that. If you've got anything to say about Kay Joyce, come out and say it."

The other man glanced at him over his shoulder.

"Did I mention any names?" he asked quietly and moved away toward the upper diggings, a new test shaft, somewhat distant from camp and rather deep in the forest, by which they sought the bedrock. Hammond did not follow.

Instead, with the shovel over his shoulder, he headed for the placer workings along the creek. It was a rejuvenated camp through which he moved. A roar sounded from the lake and Timmy Moon's airplane took off for Wrangell. From far away came the sound of hammers over at Around the World Annie's, on the Alaskan side; a tiny town had begun there; she called it Whoopee.

As Hammond walked on, he passed a squat Siwash squaw, gleaming in a new shawl of widely checkered design, an importation by air.

Then he became aware that someone was calling him. It was Jeanne Towers, waving excitedly from the doorway of her cabin store.

"I've almost sold out!" she exclaimed, as he approached. "I'm going to send in another order tomorrow. Larry Balne, he's the one with the all-metal junkies, is going to bring me back a whole lot of stuff from Faircross."

"That's the way a business grows," Hammond bantered. "Two hundred dollars for a claim, doubled all in a couple of weeks."

Jeanne laughed, tipping her home-complainer's hat with a toying finger.

"Well, nearly doubled. I hope I do it again."

"And a dozen times after that. Then I'll know where to borrow if the gold-mining business plays out!"

He went on then, at last to reach Loon creek. Kay was not yet there; it was still breakfast time in most of the camp. But Bruce Kenning was moving along the stream, toward one of his claims a quarter mile beyond. A few hundred yards up the stream, where the raw-boned Olson scooped the earth by great scoops into his sluice, he met Jeanne. Hammond saw her there often; now and then he had found Olson sitting on the veranda of the Joyce cottage, talking of wanderings in many lands in his search for gold, while Mrs. Joyce gave far more than her usual monosyllabic replies. There was some thing about the man which seemed to fascinate her. Suddenly he ceased his musings. Bruce Kenning had come beside him.

"How's the work going with McKenzie Joe?" he asked quietly.

Hammond shrugged his shoulders. "I haven't been able to get anywhere. He still wants to put down one thing at a time and give the rest of his life to it."

Kenning frowned.

"You can't have that. I'm convinced that the old river bed lies over toward the British Columbia hills," he chuckled. "I wish it were the other way around—all my claims are in the other direction."

Hammond grinned. "Well, you can't say I didn't tell you."

"Oh, you're talking about that stuff I bought from Jeanne Towers. I've since to that a great deal—on the chance that somebody around here would want it. But everybody's looking the other way. Just as well, I'm obligated to turn over some worthless claims to an English syndicate."

"That's beyond me."

"Something I took over out of what was left when Joyce died. I guess the house is crooked. They say frankly they probably won't develop the property. They just want something cheap in a live mining camp."

"A stock-selling scheme, probably."

"I haven't much doubt about it. Be glad to have the thing over."

"So would I," Hammond felt he could share Kenning's repugnance. He was fired those days with the thought of new gold, clean money. The argument had been mounting ever since that night when Kay had told him her decision. To get gold for Kay's hands clawed for gold, his mind was centred upon little else.

"How deep do you think we'll have to go to reach that old bedrock?"

"A lot deeper than you'd imagine—nearly to a hundred and twenty feet. From my study of the strata, I can't see any other answer."

## ONLY THE BEST

IS GOOD ENOUGH

This outstanding triumph is proof of quality. Twelve first prizes in twelve classes, in this year's Baby Show at the Toronto and Ottawa Exhibitions, were won by babies fed on "Crown Brand" Corn Syrup.

What better evidence can there be of the confidence which Canadian mothers and their physicians have in the purity and quality of "Crown Brand."

A delicious table syrup, "Crown Brand" is a treat for the whole family.

Tell the boys that pictures of famous hockey stars can still be obtained for "Crown Brand" Corn Syrup labels.

**CROWN BRAND CORN SYRUP**

THE FAMOUS ENERGY FOOD

THE CANADA STARCH COMPANY Limited

Hammond whistled.

"That means a lot of work."

"You bet it means work and men. And a concentrated campaign. Any other method will keep you here for the next fifty years. You've got to spend money to make money in mining."

"That's what I've been trying to tell McKenzie Joe. But he—"

There he halted. Kay was coming down the trail. Bruce Kenning called good morning and went up the stream. Hours later, with Kay and Hammond watching intently, the workers began a clean-up of the sluice box on the Joyce claim.

It only revealed the usual flour gold, indications of something more to come, but as yet, nothing worth saving.

"Neither this flume nor the sluice is long enough," one of the workers complained. "McKenzie Joe's awful lot of time just standing around, for fear of shoveling in too much gravel."

"Then build 'em up now, while you're dried out for the clean-up," Hammond said. "I'm going past the sawmill. I'll tell 'em to send some lumber."

"And nalls," called Kay.

"I'll get them."

Hammond left the stream, with its lines of eager workers. At the sawmill he gave the lumber order, then turned for Jeanne's to get the nalls. She met him, some forty yards away, returning from the delivery of a batch of darning.

"Haven't sold all those nalls?" he asked.

"I think there are some left. There's been a run on them this morning. Everybody in camp wants nalls—or glass."

They reached the store and she lifted the peg from the hap—few persons in Sapphire Lake even bothered to close their doors. Then, pushing the door open, she walked within the store, suddenly to gasp and hurry around the end of the rough counter.

The crudely built money drawer stood open. The girl wavered, staring at it, her hands half-raised, her jaw sagging. Then she said, in a quavering, half-whisper:

"Somebody's been in the store!"

"Had you left your money here?" Hammond asked sharply.

"Yes—all of it. I—I—thought—nobody ever bothers to look up—"

Hammond stared about him. It seemed inconceivable that crime should have entered this far-away place; Sergeant Terry's main floor was growing a garden. Beside him, Jeanne Towers continued to stare blankly; it was as if they sought an explanation of the impossible, the supernatural.

"But who would want to steal my money?" she asked dazedly.

"Think everything; the bills, and my nuggets and a bottle of gold dust—"

Hammond did not answer. The door had begun to swing shut; the faint breeze therefrom was sufficient to lift a bit of paper, hitherto unnoticed, and when it fell, the girl, with swift intuition, averted before him. She gasped it, turning it in her hand. Then, with a spasmodic movement, she crumpled it in a tightly clenched fist.

"It's—nothing," she said. Her face was bloodless.

(To Be Continued)

A glass may sometimes be broken by striking a loud sound of its own keynote nearby.

## Facing The Future

Free Peoples Must Realize That They Have To Protect Their Liberty

The men in the British parliament who are demanding more armaments and speedier production are the true guides of our future policy. The past is past. Our leaders have decided for good or ill, not to regard the dismemberment of Czechoslovakia as a casus belli. It cannot be revived now, no matter how brutally Hitler's minions behave toward their fallen foes. Still, we may be very sure that the old Biblical rule still stands: "Whosoever a man soweth, that shall he also reap."

But we must face the future. One meets a lot of very brave men these latter days since war has been finally averted who talk about what should have been done and said at Berchtesgaden and at Munich. They were so brave when it looked as if war was actually coming. But all free peoples, including our verbally belated American friends to the south, should realize today as never before that they must be prepared to defend their liberties if they hope to coexist and enjoy them.

Criticism from Canada at this time seems especially pointless. How ready are we to join the forces of the Lord and fight at another Armageddon? Yet if we are not ready and willing to fight, we ought at least to have the becoming modesty to keep our mouths shut—Montreal Star.

## Weather Lore

Expert Explodes Theory About Changes Of Climate

Sir Frederic Stuart, 34 years director of the meteorological service of Canada until his recent retirement, says all the talk about the weather changing down through the ages is just so much nonsense.

"I've been looking through the records of the Jesuit fathers and the weather then was just about the same as now," Sir Frederic said when reporters interviewed him regarding his coming eighty-first birthday. "About 15 years ago I prepared a paper on 'Is the Weather Changing?' and came to the conclusion that it was not. In records of 2,000 years ago there are evidences the climate in the Holy Land was not very different from what it is now."

There are "fluctuations or pulsations" every so often, he admitted. There was a period of cold winters in the 1870's and a mild spell in the 1890's. The coldest period in the last 150 years was around 1815 and 1816.

Sir Frederic was willing, too, to explode the myth about the groundhog and the shadow. The activity of squirrels and a big nut harvest doesn't mean it will be a cold winter and no one will ever be able to produce a satisfactory rain by shattering the clouds with bombs, he added.

**Should Not Be Specialized**

McGill Principal Warns Against Too Many Cubby Holes In Education

A warning that the specialization of knowledge, and the separating of it into cubby holes, was not the chief aim of education was given by Principal Lewis W. Douglass at Montreal last night to the graduating class and other students of McGill at the University Fall Convocation. Dr. Douglass maintained that specialization had been carried to such an extent that many were unequalled, by reason of the lack of possession of a broad cultural background, to hold their position, and urged his listeners to consider education as the process by which man interprets all the divisions of knowledge into a co-ordinated, integrated, unified conception of living.

**The Newest Potatoes**

Housewives Can Now Have Choice Of Several Colors

Housewives who forever are trying to get something to harmonize with something else can now try the idea on potatoes. The Pennsylvania State Department of Agriculture, thinking perhaps of the women who use upon a color scheme for the dinner table, is offering a choice of varieties. Red potatoes, pink potatoes, blues, whites, russets, yellows, whites with blue eyes, whites with red eyes, and even purple potatoes that are purple all the way through—like a beet.

The stones and timber of some Japanese temples were hoisted into place by ropes made of hair sacrificed by thousands of women and girls.

Mathieu's Syrup

Still the Favorite

## Employs Only Men

No Women Have Ever Worked For Brighton Firm

There are no flowers on the desks of directors of the business controlled by A. R. T. Perry, decorators' merchant, in Brighton, England, and the south coast.

Why? Because, though Mr. Perry employs more than a hundred men and boys in his showrooms, girl employees have been banned from the business house of Perry for nearly 70 years—from the first day that his father opened the shop in Duke street, Brighton.

Boys answer the telephone, do all the typing, make the office tea. Men show women customers round. And boys do all the office cleaning—even charwomen fall under the ban.

Mr. Perry won't have it that he is prejudiced against girls. He even admits that they can excel men in business.

For 25 years he has been a leader of the Brighton and Hove Battalion of the Boys' Brigade, and it is his ambition to give every boy he can a chance in life.

As captain, commanding officer or vice-president of the battalion, he believes in the doctrine of "Give boys a chance."

His businesses are so organized that he claims no boy can find himself in a blind-alley job. All have a chance of rising to the top.

"My husband finds in his type of business that he is lucky enough to carry on without women. But he likes to see them in the home," Mrs. Perry says.

And Mr. Perry's employees? The sales manager at the Duke street branch said with enthusiasm, "We prefer it this way. We don't in the least miss the feminine touch. We are happier without it."

"A female can be a disturbing influence in business. Without her there is less inclination to waste time. Every one has his own job to do and there is no question of 'Don't do that, dear, let me do it for you.'"

"Certainly no flowers on the boss's desk. They'd soon get thrown back if one tried it."

**Have Real Problem**

Nova Scotia Fishermen Get Very Little For Hard Work

Three Nova Scotia inshore fishermen, after telling from daybreak to midnight, landed 423 pounds of fish.

The Halifax Herald prints the following report of what happened. For the catch, the fishermen were paid \$3.68.

From the \$3.68 the fishermen had to deduct \$1 for delivery to market, leaving \$2.68 to pay for three men's work, gasoline, bait, and upkeep of boat and gear.

Of the 423-pound catch, 324 pounds were sold to retail customers. The consumers paid for those 324 pounds of fish a total of \$30.20.

Housewives paid almost ten times the gross earnings of the fishermen. Whether or not the circumstances in this specific case were exceptional we do not know. But study of prices paid to fishermen and prices paid by the consumer over a period of some weeks shows a very wide gap indeed.—Maclean's Magazine.

**Features Of The Future**

New Architecture Will Be Seen At Coming World's Fair

A preview of the style of architecture to be exemplified in the New York World's Fair is provided by a brand new new neogothic night club, the Riviera. Every interior wall curves on an arc, giving each room an illusion of far greater spaciousness. The main dining room, a huge oval of 6,000 square feet, belies the compact appearance of the building's exterior.

Other "features of the future" are a disappearing 52-ton roof, a receding stage, a revolving stage with colored floor lights, a revolving bandstand for orchestra changes, and sliding glass walls which drop at the toss of a switch and open the huge dining room to the Hudson River's breezes.

A heat metro so sensitive that it will react the effect of a bluish has been developed by engineers interested in the proper heating and ventilation of buildings.

A plow which was leamed against a tree on the Leffingwell farm, near Exira, Iowa, more than 50 years ago remains there today, firmly embedded in the tree's trunk.

Pike County, Ark., is the only place in North America where diamonds are found in any quantity.

Dancing, drinking, embracing and kissing are banned on the Japanese screen.

Britain is bidding for the world bicycle trade.

## Rheumatism

JUST DO WHAT YOU SEE IN THESE PICTURES TO RELIEVE PAIN QUICKLY

1. Take 2 "Aspirin" Tablets with a full glass of water the moment you feel either a rheumatic or neuritic pain coming on.

2. You should feel relief very quickly. If pain is unusually severe, repeat according to directions.

To relieve pain of rheumatism or neuritis quickly, try the "Aspirin" way—shown above.

People everywhere say results are remarkable. "Aspirin" Tablets are economical, which makes the use of expensive "pain remedies" unnecessary. If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking "Aspirin" to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

**Demand and Get "ASPIRIN"**

TRADE MARK REG.

**250 Historic Sites**

Marking Stirring Events In The History Of Canada

More than 250 monuments and tablets have been erected throughout Canada during the past 16 years to mark points of historic interest which have been declared by the Historic Sites and Monuments Board of Canada as being of outstanding national importance.

An honorary advisory board, the Historic Sites and Monuments Board, composed of recognized historians, co-operates with the National Parks Bureau and the Department of Mines and Resources in the marking and preservation of historic sites, and from the Atlantic to the Pacific stretching events in the history of Canada are recalled by tablets and monuments erected by the government.—Canadian Resources Bulletin.

**Plenty When It Came**

Oklahoma City Suffered A Flood After Water Shortage

It was tough when Disney, Oklahoma, was without water. It was just as tough when water came. Short of supply since mid-July, residents left their faucets open constantly to catch every drop that entered the mains. City engineers found a good way, hooked it on out notice. The water supply boomed into the mains, the faucets, the homes. Disney suffered a flood.

Promoter: "There are two sides to every question."

Prospect: "Yes, and there are two sides to a sheet of fly paper—but it makes a lot of difference to the fly which side he investigates."

On the Malay Peninsula, bees make honey but do not eat it; they live on nectar the year around, and they unused honey accumulates in great masses.

Wales has banned the tacking of notices on trees.

## MUSCULAR PAINS—ACHES

It takes more than "just a salve" to bring relief. It takes a "counter-irritant" like good old Musterole—something warming, penetrating and helpful in quickly overcoming the local congestion and pain when rubbed on the aching spots.

Muscular lambs, soreness and stiffness generally yield promptly. Better than the old-fashioned mustard plaster, Musterole has been used by millions for 30 years. Recommended by leading doctors and nurses. Made in Canada, in this strength: Regular, Children's (mild), and Extra Strong. All druggists, 40¢ each.

**MUSTEROLE**

tribution to all of us."

—Hon. Louis Dussault

Car License Came  
Down October First

Slightly increased demand for  
passenger car licenses is antici-  
pated next week by D. Ormound, in-  
surer of motor licenses, when  
reduced fees come into effect on  
October 1st.

The reduction in fees is 40 per  
cent. It is the first reduction since  
the beginning of the license year  
last April, stated Mr. Ormound this  
morning.

The licenses issued next Satur-  
day will remain in effect for the  
remainder of the fiscal year, until  
March 31, 1939.

"There is one danger that  
Canada and the United States  
are threatened with the danger  
of a Fascist invasion in South  
America."

—Professor Arthur Newell

### THE LADIES' CARD PARTY MET

The Ladies' Card Club met at  
the home of Mrs. W. Wilson on  
Tuesday evening. The hono-  
rable were shared by Mrs. Robison  
and Mrs. Morrison.

The Club will meet next week  
at the home of Mrs. A. S. Lee.

Word was received on Tuesday  
by Mr. Jacobson that his son  
who is in the I. B. Hospital  
at Calgary had a bad attack.  
Mrs. Jacobson and Mrs. Gustafson  
left on the night train for Calgary.

### Before Bed Snacks

By BETTY BARCLAY

An early dinner and long even-  
ings make little people hungry  
around go-to-bed time. They clamor  
for "something good" and insist  
upon having it.

Too heavy before-bed foods are  
not advisable. A light, rennet-  
custard, rich in milk and delicious  
to the taste makes an ideal bed-  
time lunch for George or Grace. As  
these desserts require no eggs, no  
baking and no boiling, but may be  
made quickly and placed in the  
refrigerator to become cool, they  
please the busy mother as well as  
her hungry children.

A dessert like the following fur-  
nishes milk in a very pleasing  
form, and gives the children a  
delightful surprise — for here is  
Snow White and her seven little  
friends in a dainty treat that  
will intrigue young fancies — yet  
it is so light and digestible it helps  
to soothe pleasant dreams.

Snow White and The Seven Dwarfs  
1 package Vanilla Rennet Powder  
1 pint milk  
1/2 cup whipping cream  
Snow white angel food cake  
Seeded raisins rolled in Rasp-  
berry Rennet Powder or pink  
sugar

Set out 6 dessert glasses. Warm  
milk slowly, stirring constantly  
until LUKEWARM — 120° F. A few  
drops of the milk on the handle of  
your wrist should feel only com-  
fortably warm. Remove from stove.  
Stir Rennet Powder into milk  
briskly until dissolved — not more  
than one minute. Pour at once,  
while still liquid, into dessert  
glasses. Place a slice of snow  
white angel food cake in each  
dessert while still liquid. Let set.  
Chill. When ready to serve, top  
each dessert with whipped cream  
and seven seeded raisins rolled in  
Raspberry Rennet Powder or pink  
sugar.

## Crested Wheat And Bromé Are Popular Crops

Samples of the grass and  
clover seed are arriving at the  
Calgary laboratory of the Dom-  
inion seed branch for grading  
and in some instances applica-  
tions have been received to  
have sacked supplies certified  
and sealed, officials told the  
Herald yesterday.

Though early in the season  
for seed sales, the bulk of the  
present movement is thought  
to be the seed houses and  
cleaning plants. Farmers are  
not yet paying and not ex-  
pected to be for some time.

This year the province has  
two unusually large crops of  
grass seed, crested wheat and  
brome, thanks to many farm-  
ers taking off a seed crop in  
view of the low prices quoted  
for hay.

Expect Lower Demand  
With these abundant sup-  
plies on hand, present indica-  
tions are that the demand for  
crested wheat will be lower  
than last year in Alberta  
though other provinces may  
possibly be large purchasers.

So far as the brome grass is  
concerned there is always a  
steady demand for both do-  
mestic and export trade, and  
while the quantity available  
this year has been described  
as "enormous" it is not expect-  
ed to be a drug on the market.

In previous years Alberta-  
grown brome has been ex-  
ported even to northern Russia.

## AMATEUR CONTEST & DANCE to BE HELD

An Amateur Contest and  
Dance will be held in Chinook  
School Friday, Nov. 4th.  
Prizes \$3.00, \$2.00 and \$1.00.  
Entries must be in hands of  
Mr. Charyk Oct. 28th. Pro-  
ceeds for purchase of film—  
slide machines for schools in  
the Cereal Chinook sub local.

Youngstown (Special) — Mr.  
and Mrs. W. B. Gordon of Young-  
stown, entertained at their home  
on Saturday evening in honor of  
their 49th wedding anniversary.

Those present were Mr. & Mrs.  
Bartman, and children, of Hanna;  
Mr. and Mrs. George Gordon and  
family, of Youngstown, and Mr.  
and Mrs. D. B. Gordon, of Killam,  
Alberta.

### They like Movies

When two boys moved to  
Calgary recently with their  
mother from Oyen, their idea  
of making good in a big city  
was apparently to stage a sit-  
down strike in one of the  
movie theatres.

They went to a picture house  
and sat through the same picture  
for eight hours.

The mother sent one of the  
other members of the family to  
locate them, but the film en-  
thusiasts had not yet had enough and  
wanted to see it through once  
again.
